

ReferMedi - Application Consent Letter

Conditions for Hospitals

- 1. Purpose:** The purpose of this application is to connect the **3 pillars of the healthcare sector** ie **patients, doctors & hospitals** so that they can effectively communicate with each other and can carry out things like referring a patient, looking out for various hospital details, connect with a doctor, maintain the patients' records & much more through this beautiful & elegant platform.
- 2. Confidentiality:** This website contains a lot of sensitive information about each entity like the infrastructure counts in a hospital, addresses, phone numbers, and patient test reports, so you have to agree on the fact that you will not extract or use this information for any type of personal use and the information available should not be sent anywhere else.
- 4. Entity Rights:** A hospital will be the key holder in this platform where it can not only maintain the patients' records but can also allocate new space to doctors so that they can keep a track of entities who work for them. But adhere to the fact that no one should promote any kind of discrimination between patients or platforms.
- 5. Services:** Everyone gets access to things like Virtual Voice Assistant & email services, so use them wisely and ensure that there is no waste of any type of resource because everything comes with a cost and we all are trying to make this platform the best out there.

Declaration:

Do you agree to provide your consent to the above mentioned conditions? By doing so, you are bound to follow them and any discrepancy from the above mentioned points may lead to termination of your account. Yes
